Confederated Tribes of the Umatilla Indian Reservation  
DNR Fisheries Program Project Semiannual Report  
Grande Ronde Subbasin Fish Habitat Restoration  
Period: July – December 2012

**Project Statement/Goal:** Protect, enhance and restore functional, healthy and sustainable floodplain, channel and watershed process for the purpose of protecting and restoring fisheries and aquatic species in the Grande Ronde Basin.

**Project Objectives:** Specific project objectives are developed to address habitat limiting factors determined during baseline surveys and assessment. Objectives for reporting period are directed towards planning/design of new projects in preparation for implementation.

**Outputs (specific 6-mo task accomplishments):**
- Constructed Catherine Creek Fish Habitat Enhancement Project (RM37).
- Constructed Willow Creek Fish Habitat Enhancement Project.
- Continued planning, design, and EC compliance on Rock Creek Project.
- Continued planning and design on Catherine Cr.(RM44).
- Continued land and conservation easement planning. Developed 2 new acquisition opportunities along Catherine Creek.
- Continued coordination and development of land and easement acquisition effort, including meetings with BPA, development of maps, prioritization criteria and real estate documentation for acquisition portfolio.
- Initiated strategic planning with BPA, BOR, and other partners to develop prioritization and ranking matrix for fish habitat priorities through process commissioned by BPA (=Atlas Process).
- Initiated development of Grande Ronde Subbasin Restoration Project for 2013 Geographical Review under the NPPC Fish and Wildlife Program.

**Outcomes (progress and trends resulting from outputs):**
- Completion of CC37 project construction, including planting, and finalization of CTUIR conservation easement to protect project (0.76 miles of Catherine Creek at RM37).
- Completion of major construction on Willow Creek project (1 mile re-activated Willow Cr)
- Progress on land/easement acquisition planning.

**Impacts (long-term accomplishments and vision):**
- Contribute to achievement of healthy watersheds (DNR River Vision) and increased traditional first food abundance and use opportunities.
- Contribute to achievement of Subbasin Plan and ESA Recovery Plan goals.
- Assist in recovery of Endangered Species Act subject species (spring/summer chinook, summer steelhead, bull trout)
- Address water quality limiting factors as per Clean Water Act 303d list
